

## “PUNE FACE SHIELD”

---

### For the COVID19 Front liners

During the current crisis times, the most vulnerable and prone to infection are the front liners such as doctors, nurses, paramedical staff, hospital administration staff and Police Administration Staff.

Face shields are personal protective equipment (PPE) devices that are used for protection of the facial area and associated mucous membranes (eyes, nose, mouth) from splashes, sprays, and spatter of body fluids.

Venture Center has assembled a team to design a face shield using very economic materials and which is suitable for scalable manufacturing processes.

#### Features:

- Good Visibility
- Fog Resistant
- Breathable
- Adjustable Elastic Band
- Replaceable Screen

Venture Center through its Technology Transfer activity [TECHEX.IN](https://www.techex.in) has been actively issuing Creative Commons License as a new effort to promote and help technology transfer.

[TECHEX.IN](https://www.techex.in) is a Technology Transfer Hub operated by Venture Center, Pune, [TECHEX.IN](https://www.techex.in) aims to help technology developers and technology commercialisation entities find each others, forge partnerships and advance the technology closer to the market in a win-win partnership.
